

**GOVERNMENT MEDICAL COLLEGE DODA**  
**DEPARTMENT OF PATHOLOGY**

It is to inform your goodself that Department of Pathology is ready to do CSF EXAMINATION (Cell counts and cytology ) provided following guidelines are strictly followed by the clinicians:

1. CSF should be collected in four separate vials each containing 1ml except for fluid sent for microbiology examination which should be 2ml.
2. Glass tubes should be avoided.
3. CSF should be transported immediately to the laboratory as cells disintegrate rapidly if the transportation is delayed.
4. A Traumatic lumbar puncture should be communicated.
5. Clinical history of the patient and indication for CSF Examination should be mentioned.
